

SRUSHTI PATEL

FULL STACK DEVELOPER

[249.979.0722](tel:249.979.0722) | shrupatel07@gmail.com | [Sudbury, ON, CA](#) | srushtipatel.netlify.app | in/srushtipatel07

PROFILE SUMMARY

Experienced Full Stack Developer with a robust background in UI/UX design, and full-stack web development across diverse industries. Skilled in building and maintaining scalable, user-centric applications using React.js, Angular, Node.js, and MongoDB, along with expertise in creating visually compelling interfaces using various design tools. Known for enhancing user engagement, optimizing performance, and delivering projects that exceed client expectations. Experienced in collaborating with cross-functional teams to achieve seamless integration of design and functionality, ensuring high-quality and timely delivery. Additionally, possesses knowledge of cybersecurity.

SKILLS

DESIGN TOOLS

Adobe XD | Illustrator | Photoshop | After Effects | InDesign | Figma | Canva

FRONTEND DEVELOPMENT

HTML | CSS | JavaScript | React JS | Angular JS | Bootstrap

BACKEND DEVELOPMENT

Node JS | Express JS | Spring Boot | MongoDB | MySQL

GENERAL SKILLS

Web Design | Responsive Design | Graphic Design | Visual Design

USABILITY AND TESTING

Usability Testing | Wireframing

DEVELOPMENT ENVIRONMENT

Visual Studio | Docker

VERSION CONTROL

Git | GitHub | GitLab

WORK EXPERIENCE

FULL STACK DEVELOPER

Ingenious Technologies | Vadodara, India
Apr 2022 - Present

- Developed and maintained Java Full Stack applications using Spring Boot for backend services, ensuring robust performance and security through Spring Security.
- Leveraged AWS for deploying and managing e-commerce applications, ensuring reliable, scalable, and secure cloud infrastructure for high-traffic periods.
- Used Azure for backup and disaster recovery, minimizing downtime and ensuring data integrity.
- Designed and implemented RESTful APIs integrated with MySQL for efficient data management and retrieval.
- Utilized Angular and TypeScript to create dynamic, responsive user interfaces, significantly enhancing user experience.
- Leveraged Docker for containerization, facilitating seamless deployment and scalability across various environments.
- Collaborated with cross-functional teams to design user-friendly interfaces for web and mobile applications, boosting user engagement and satisfaction.
- Organized and participated in design review meetings and brainstorming sessions to exchange ideas and insights with team members.
- Developed a responsive design framework that improved accessibility and user experience across devices and screens.
- Created and maintained design systems and style guides to ensure visual consistency across all products.
- Conducted usability testing sessions to analyze user interactions and refine design features based on direct feedback.
- Assisted in designing user interfaces for various projects, contributing to the overall UX strategy.
- Collaborated with developers to ensure precise implementation of designs that met project specifications.
- Spearheaded the development of a scalable e-commerce platform for a cosmetics and skincare website, utilizing Angular, Node.js, and MongoDB. Ensured mobile and desktop optimization, enhancing accessibility and user engagement.
- Partnered with designers using Figma to create wireframes and prototypes, successfully transforming concepts into high-fidelity designs and interactive user interfaces for mobile and web applications.
- Constructed an intuitive, responsive UI for a neurosurgery scheduling tool, that improved operational efficiency and simplified hospital and insurance billing processes.

- Created wireframes, mockups, and prototypes using tools such as Adobe XD, Sketch, and InDesign.
- Developed websites utilizing React JS, Node JS, and JavaScript, coordinating closely with team members to ensure cohesive results.
- Designed various marketing materials, including logos, graphics, brochures, business cards, flyers, and banners, tailored to customer specifications and requirements.
- Collaborated with cross-functional teams to design and develop user interfaces for web and mobile applications, ensuring usability across platforms.
- Conducted user research and journey mapping to inform design decisions and enhance user experience through rigorous usability testing.
- Implemented responsive design techniques and optimized user interfaces for improved performance and accessibility.
- Partnered with developers to translate design specifications into functional front-end code, ensuring seamless integration with back-end systems.
- Worked with the project director to deliver design solutions that aligned with client specifications.
- Organized and participated in design review meetings, brainstorming sessions, and cross-functional discussions to share insights and foster collaboration.
- Applied SEO best practices to optimize websites for better visibility and search rankings.
- Led the completion of outstanding projects, ensuring adherence to deadlines and budgetary constraints.
- Developed portfolio website using React.js to showcase skills and projects.
- Designed and developed the platform to connect users with industry professionals. Executed UI/UX designs using Figma, creating detailed wireframes and user flows to enhance user interactions.
- Worked closely with developers to ensure seamless UI-to-code translation, enhancing website performance and accessibility. Led user research and testing initiatives to refine designs based on direct feedback.

INTERNRAV InfoTech | Vadodara, India
May 2019 - Jul 2019

- Acquired proficiency in the .Net framework and actively participated in project development endeavors.
- Executed logo design tasks in adherence to predefined specifications.
- Engaged in the creation of website content tailored to specific requirements.
- Made substantive contributions to the advancement of ongoing projects.
- Assisted in website development utilizing fundamentals of HTML, CSS, and JavaScript.

EDUCATION

BACHELOR OF TECHNOLOGY

2016 - 2020

Computer Science & Engineering
Parul University
CGPA: 7.51 / 10

PROJECTS

PUFF & SIP

- An e-commerce platform crafted using Figma for design, Angular for the front-end, Node.js with the Express framework for server-side operations, and MongoDB for database management.

SYNO APPS

- A final year project aimed at assisting technicians in neurosurgery. The application provides efficient scheduling and accounting systems, developed using Angular, Spring Boot, and Websockets.

BIO VATIKA

- E-commerce platform featuring a responsive design suitable for both desktop and mobile devices, developed using Figma.

KONSARUTANTO

- An online learning platform designed with Figma, focusing on user-friendly interfaces and educational content delivery.
