WORK EXPERIENCE

FULL-STACK DEVELOPER

Ingenious Technologies | Vadodara, India
Apr 2022 - Present

- Developed and maintained Java Full Stack applications using Spring Boot for backend services, ensuring robust performance and security through Spring Security.
- Designed and implemented RESTful APIs integrated with MySQL for efficient data management and retrieval.
- Utilized Angular and TypeScript to create dynamic, responsive user interfaces, significantly enhancing user experience.
- Leveraged Docker for containerization, facilitating seamless deployment and scalability across various environments.
- Collaborated with cross-functional teams to design user-friendly interfaces for web and mobile applications, boosting user engagement and satisfaction.
- Organized and participated in design review meetings and brainstorming sessions to exchange ideas and insights with team members.
- Developed a responsive design framework that improved accessibility and user experience across devices and screens.
- Employed Figma and Adobe XD for prototyping and user testing, resulting in a refined user journey.
- Created and maintained design systems and style guides to ensure visual consistency across all products.
- Conducted usability testing sessions to analyze user interactions and refine design features based on direct feedback.
- Assisted in designing user interfaces for various projects, contributing to the overall UX strategy.
- Collaborated with developers to ensure precise implementation of designs that met project specifications.

UI/UX DEVELOPER

One5 Digital | Melbourne, Australia
Dec 2020 - Mar 2022

- Created wireframes, mockups, and prototypes using tools such as Adobe XD, Sketch, and InDesign.
- Developed websites utilizing React JS, Node JS, and JavaScript, coordinating closely with team members to ensure cohesive results.
- Designed various marketing materials, including logos, graphics, brochures, business cards, flyers, and banners, tailored to customer specifications and requirements.

- Collaborated with cross-functional teams to design and develop user interfaces for web and mobile applications, ensuring usability across platforms.
- Conducted user research and journey mapping to inform design decisions and enhance user experience through rigorous usability testing.
- Implemented responsive design techniques and optimized user interfaces for improved performance and accessibility.
- Partnered with developers to translate design specifications into functional front-end code, ensuring seamless integration with back-end systems.
- Worked with the project director to deliver design solutions that aligned with client specifications.
- Organized and participated in design review meetings, brainstorming sessions, and cross-functional discussions to share insights and foster collaboration.
- Applied SEO best practices to optimize websites for better visibility and search rankings.
- Led the completion of outstanding projects, ensuring adherence to deadlines and budgetary constraints.

INTERN

RAV InfoTech | Vadodara, India
May 2019 - Jul 2019

- Acquired proficiency in the .Net framework and actively participated in project development endeavors.
- Executed logo design tasks in adherence to predefined specifications.
- Engaged in the creation of website content tailored to specific requirements.
- Made substantive contributions to the advancement of ongoing projects.
- Assisted in website development utilizing fundamentals of HTML, CSS, and JavaScript.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

2019 - Present

- Constructed a portfolio website using the React.js framework, with the primary objective of showcasing my knowledge and skills.
- Designed the logo and graphics with Adobe Illustrator to enhance the website's visual identity.

PUFF & SIP

Jun 2024 - Present

- This e-commerce website was designed for a café to sell food online, offering various types of coffee, puffs, mocktails, and other food items.
- The design was created using Figma.
- The development utilized the Angular platform, Node.js, and the Express framework.
- The database was built with MongoDB.
- Additionally, the website includes online payment functionality through payment gateways.

BIO VATIKA

Aug 2022 - Nov 2022

- This website was designed to cater to the niche market of cosmetics, daily skincare, and hair products, offering a wide array of brands for customer selection.
- The design process was carried out using Figma.
- Ensuring the website is optimized for both desktop and mobile applications.

KONSARUTANTO

Aug 2022 - Nov 2022

- This website was designed to connect users with professionals who can assist with their queries.
- Engaged in the conceptualization and design of the website, including the creation of wireframes.
- Figma was used for both the development of wireframes and the design of the website interface.

SYNO APPS

Jun 2019 - May 2020

- Developed an application to assist technicians in monitoring neurosurgery, providing an efficient scheduling and accounting system within the specialized field of neuromonitoring.
- The SynoApps is for Faultless Scheduling and Monitoring. It also makes both Hospital and Insurance billing system easy and faster.

E D U C A T I O N

BACHELOR OF TECHNOLOGY

2016 - 2020

Computer Science & Engineering

Parul University

CGPA: 7.51 / 10
